STILL SMILES

Misfortune which has trailed Earl G. Knight, Stark county farmer, during the last five years would break the spirit of the average individual. In the face of an unbroken chain of adversity Mr. Knight comes up smiling and is prepared to carry on. That sort of a man is entitled to a "break" some time. It is bound to come.

Fire destroyed Mr. Knight's grainery and 400 bushels of prize wheat, together with a quantity of hay, farm implements and such. That was Saturday night. In recent years he has been compelled to undergo a surgeon's knife twice. Mrs. Knight has also been in the hospital twice, each time critically ill. Fire last summer destroyed a chicken house and a thousand little chicks.

Today, however, Mr. Knight is able to smile in the face of his accumulated misfortune. And a man who can smile when there may be an ache in his heart is the kind of a man whom the world admires. Bad luck cannot continue forever. When good luck comes Mr. Knight will get his share.

MAKING RECORDS

The airplane, continually establishing new records, has detracted attention from former methods of transportation to a marked degree. Transatlantic aviation ventures have occupied the front pages of newspapers for several years. Few persons who have completed a successful crossing have established themselves as members of the group of famous men and women of the world.

Meanwhile, ocean liners, great carriers of the seas, have gone steadily about their work of transportation, carrying thousands of passengers and doing millions of dollars worth of business for their owners. Their voyages were unheralded except in the few cases where there was disaster or danger. They watched for the airplanes which were trying to join the two continents and occasionally picked them up when they met with disaster. Their only recent glory has been their dependability.

On July 22, the North German Lloyd liner, Bremen, regained the transatlantic speed record from the Cunard liner, Mauretania, with a crossing made in four days, seven hours and forty-two minutes. This bettered the former record by eight hours and fifty-two minutes. When this great palace of the waves was finally tied up at its Brooklyn pier, the first of its 2,200 passengers came ashore and harbor officials started estimating the changes that would have to be made in harbor arrangements if such huge vessels became common. The Bremen is 902 feet long. She is hailed as the first of a great fleet which will measure almost one-fifth of a mile in length.

Other startling things were achieved on the maiden voyage of this newest and fastest greyhound of the seas. The record for a day's run was broken with a distance of 713 nautical miles covered in 24 hours at an average hourly speed of 29½ knots, or in terms of land miles, the speed necessary for an automobile to maintain an average of almost 35 miles an hour. Noteworthy among other events of the trip was the expedited mail service in which a plane was catapulted into the air several hundred miles out and reached land four hours before the ship.

It has been suggested that airplanes eventually will be able to span the Atlantic in safe stages by the use of floating fields. Any arrangement which could better the time of the Bremen will be a great improvement, but until it is made as safe as by boat the Bremen's record will stand as one of mankind's greatest achievements.

Germany, nation of record breakers, must be more than ordinarily proud of this great vessel. She must remember that the other efficient giant of the seas, the Leviathan, also was a product of German skill and industry and that her place as world ship builders is but slightly disputed. Germany's recovery from the disasters of war and her reestablishment as a nation of startling enterprise is one of the greatest records of all.

What Others Say

WATCH OUT IN HOT WEATHER

With weather conditions as variable as they have been this summer, with the mercury sliding up and down the thermometer, city dwellers must be prepared for sudden changes from fairly cool, pleasant days to brief periods of extreme heat. When the temperature rises, reports of heat prostrations increase.

Consequently men, women and children should be reminded that there are two distinct conditions which may develop from extreme exposure during hot weather. One is heatstroke, commonly known as sunstroke, and the other is heat exhaustion. Since the emergency treatment for the two conditions is different it is essential to know the symptoms of each.

Sunstroke produces a high fever. The skin of the patient becomes hot and dry, following the first warning, which is the cessation of sweating. Sunstroke usually attacks a person engaged in some active occupation and, if not relieved, will bring about unconsciousness and death. Immediate reduction of the body temperature is imperative by means of a cold bath or the rubbing of the patient's entire body with cold water, supplemented by the drinking of cool water if the patient is able to. To prevent sunstroke, a person should drink plenty of water, cold, but preferably not ice-cold. If the normal process of perspiring ceases this should be taken as a signal to stop any physical activity, drink more water, and if possible take a bath in water cooler than the body temperature.

Heat exhaustion is a condition of fatigue induced by loss of sleep and appetite, as well as the use of alcoholic drinks during hot weather. In such cases the temperature is normal, or subnormal, and the cold water treatment should be avoided. Application of external heat to the body, hot tea, coffee or cocoa to drink and rest in bed, are the remedies for this form of exhaustion.

Aside from these more serious forms of illness, digestive disorders are frequently caused by continued hot weather. Hence the wise person will avoid excess of any sort in eating, drinking or exercise. Yet he should be prepared to recognize symptoms of sunstroke or heat exhaustion in himself and others, and to give relief accordingly.—Detroit Free Press.

HOT WEATHER COUGHS
HANG ON TENACIOUSLYBY ROYAL S. COPELAND, M. D.
(United States Senator from New York)

Winter is the time we expect colds and catarrhs. But it is not in cold weather alone that human beings suffer from these ailments. Even in mid-summer they are all too common.

DR. COPELAND

Indeed, about the world of colds is the "summer cold." It drags on taking what is left of exhausted energy. Really, you can be positively ill and incapable of your daily duties. From the effects of one of these colds, you may feel like staying in bed for several days.

Science has much to learn about the common cold. It is not known for a certainty what causes it. It is due to the action of germs, bacteria bacilli, or a virus of some sort? Who knows?

The Stars Say —

For Friday, July 26

Although this bids fair to be an exceedingly active and interesting day, judging by the lunar aspects, yet it is probable that matters achieved must be wrested from tenacious obstacles or difficult situations. There may be opportunity for new contracts, and in those things pertaining to writing, publishing, promotion and publicity as well as in ordinary channels of trade and bargaining, but postponements and setbacks should be viewed with equanimity as but temporary.

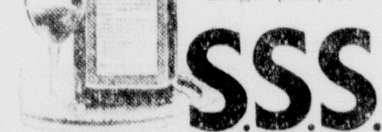

Those whose birthday it is are in the eye of a lively and eventful year, with promise of good business, new contracts and all pertaining to writing, publishing and kindred occupations are well fortified, but all may be subject to postponements and tenacious obstacles to be overcome before ultimate triumph. A child born on this day may be exceedingly clever and versatile, well equipped for professional success, but it may encounter many tenacious obstacles.

A clear skin
is irresistible... in fact, popularity
depends upon it ...

THAT priceless treasure—a clear, flawless, lovely skin—charms, with admiration, the hearts of men.

First impressions cannot be good without a clear skin—first impressions are quickly made and are not soon forgotten. Old friends may excuse pimples and secretly sympathize but new acquaintances may not be so charitable. Skin blemishes are not inviting. Neither can they be covered up. They embarrass. Hold people back. Steal away joy and happiness.

A lovely—clear skin—is within the reach of all. To those who have lost it, hope is offered. You, too, may have a beautiful skin, rose-petal in texture, pretty as a picture and without a single pimple.

The way to the skin is through the blood. Strong, healthy blood nourishes the body and fights against infection and disease.

Many thousands have regained their strength and charm by taking S.S.S. It is Nature's own blood tonic for raising the body's power of resistance to disease, improving the appetite, building firm flesh, and clearing the skin. S.S.S. promotes constructive metabolism (healthy body building). It increases the number of red-blood cells.

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

All good Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

CRAZY Crystals
A Mineral Water Treatment

For the greater convenience of home use, Crazy Water is prepared in the crystallized form. Crazy Crystals are made from the famous Crazy Mineral Water through a process of evaporation. Nothing is added. Please remember that a one-pound box of Crazy Crystals represents 15 gallons of Crazy Water, a natural laxative mineral water, and in taking the Crystals, a Mineral Water should be made as nearly like the natural water as possible.

Keep a box of Crazy Crystals in your bath room and upon arising drink a glass of Mineral Water by adding one-half to one teaspoonful of Crystals to a large glass of water. Do this every morning. Proper diet regulations should be used. Drink water freely between meals and take plenty of exercise. For regular use add one ounce of Crystals to a gallon of water and drink eight to twelve glasses per day, but do not drink Mineral Water with or just after meals.

It is a known fact that when these Crystals are used with discrimination according to individual requirements, the results will equal those obtained in the various diseases in which the Natural Crazy Mineral Waters have long been successfully employed.

Washington, July 25.—Actual reduction—and not merely limitation—of the world's naval armament appeared appreciably nearer today as a result of the informal agreement between President Hoover and British Prime Minister MacDonald on both sides of the Atlantic for this year at last.

She was not a prisoner, but a visitor, who was making her first visit to the penal institution, which houses more than 4,000 convicts.

In company of her husband, Andrew L. Luddy, of Clarksburg, W. Va., the woman had journeyed here from the adjoining state to see her brother, Harry L. Foreman, who is serving a term of from seven to 20 years for forgery.

Arrangements were completed for the Clarksburg woman, and she left her husband in the waiting room of the battle and went into the "bull pen." Little did she know that it was the last time she would see her spouse.

And she did not see her brother either. He arrived from his cell just as the woman sighed heavily, gasped and then dropped dead, due to a heart attack.

Death Takes First Woman In Ohio Pen In Sixteen Years

Columbus, O., July 25.—For the first time since 1913, when the women inmates of the Ohio state penitentiary here were transferred to the then newly-constructed women's reformatory at Marysville, a woman died in the big state prison here yesterday.

She was not a prisoner, but a visitor, who was making her first visit to the penal institution, which houses more than 4,000 convicts.

In company of her husband, Andrew L. Luddy, of Clarksburg, W. Va., the woman had journeyed here from the adjoining state to see her brother, Harry L. Foreman, who is serving a term of from seven to 20 years for forgery.

"KONJOLA JUST THE MEDICINE THAT I NEEDED"

Grateful Lady Praise: Modern Remedy For the New Health That Just Four Bottles Brought Her

MRS. MANUEL CONCEPTION

"My appetite was so poor that I often went all day without eating," said Mrs. Manuel Conception, 1935 Seventh Street, N. E. Canton, O. "Food soured in my stomach and caused bloating and gas. Constipation and a sluggish liver were other causes of trouble. I did not sleep well at night, and lost weight, strength and vitality.

"Konjola proved to be just the medicine that I needed. My appetite has returned, and the food I eat never causes distress afterward, like it formerly did. Constipation is a thing of the past. I have taken just four bottles of this remarkable remedy and gained over four pounds. My liver and kidneys have been restored to normal functioning, and my nerves are calm."

Konjola is sold in Salem at all J. H. Lease drug stores and by all the best druggists in all towns throughout this entire section.—Adv.

You need this "different" fuel in hot weather

SOHIO gives smooth, even power
no matter how fast or far you drive...

WITH Summer Sohio in your
gasoline tank you'll find your
car operating smoother and cooler.
You'll find less need for shifting
gears on hills. Carbon knocks will dis-
appear. Watch your mileage increase.

The reason is simple. Sohio is
specially refined to meet warm weather
driving conditions. In Summer the
danger of overheating is always
present; knocking motors labor on
hills and cause excessive vibration,
needless loss of power and unneces-
sary wear and tear on the engine.
Motors become lazy and sluggish, and
fail to develop their full efficiency.

Put Summer Sohio Ethyl in your
tank and forget summer driving
troubles. You'll find Summer Sohio
giving your motor a new snap and
added power. You'll find your oper-

ation cooler and quieter, too, because
Summer Sohio does these things:

1. Prevents pre-ignition
2. Stops carbon knocks
3. Gives smooth, even power
4. Makes frequent gear shifting unnecessary

Drive up to one of the 700 Red-
White-and-Blue Standard service
stations that dot the State of Ohio.
Or stop at one of the thousands of
Sohio dealers' pumps. Ask for
Sohio. Try it out—and join the
thousands who are now convinced
that there IS a difference in gasoline.

RED CROWN Changed, too

Crown is also refined to special warm-
weather standards.

Refuses To Let Man See
Daughter; Scuffle

Batavia, O., July 25.—Accused of
shooting Huber Haywood, 58, farm-
er and race horse man, living near
here, Howard Hill, 39, was confined
in the Batavia jail today awaiting
the outcome of Haywood's injury.
Haywood's condition was said to be
serious. He was shot through the
liver as the result of his objection
to Hill paying attention to Hay-
wood's daughter, Mary, 28, author-
ities declared.

Haywood is in a Cincinnati hospi-
tal. Police said Hill admitted shoot-
ing Haywood.

The shooting occurred last night
shortly after Hill arrived at the
Haywood farm. According to Hill's
alleged confession, Haywood, armed
with a double-barreled shotgun,
met Hill at the door of the Haywood
farm house and insisted that Hill
should not see his daughter. Hill, it
was stated, had a 32-caliber revolver.
Haywood ordered Hill off the farm.

The men began wrestling, accord-
ing to Hill. This continued as the
two men moved through the yard to
a road where, Hill said, he shot
Haywood who was trying to choke
him.

Ruth-Gehrig Duo Given Hard Battle For Homerun Honors

Hack Wilson Clouts Two Homers To Bring Bruins Back To National Lead; Bucs Lose To Robins; Athletics, Yankees Annex Decisions

New York, July 25.—Instead of being the only outstanding combination of circuit clouters in the big leagues, the Yankee firm of Babe Ruth and Lou Gehrig is being paced by other duos in this year's home run derby.

The totals of the six sets of home run twins are: Klein and O'Doul of the Phillies, 49; Wilson and Hornsby of the Cubs, 45; Ruth and Gehrig of the Yankees, 44; Ott and Jackson of the Cardinals, 44; and Simmons and Fox of the Athletics, 42.

Most of these combinations are teamed together in the batting order, and when they start working the hit-and-run play, the execution is terrific. Wilson and Hornsby went on a rampage against the Yankees yesterday, "knocking back" Wilson's 24th and 25th homers and Hornsby contributing his 20th. Their activities enabled the Bruins to snatch an 8 to 7 win from the Giants, who scored all their runs in a sixth-inning outburst.

Cubs Back In Lead

The Cubs regained the league lead, as Pittsburgh lost to Brooklyn again, 6 to 4. Babe Herman's two triples helped Lefty Clark outpoint Heinie Meine, the Pirate hurler.

Bill McKechnie resumed command of the St. Louis club under auspicious circumstances, the Cards beating the Phillies 6 to 4. Roettger's homer with the bases full broke up the party.

George Sisler's triple with two on staked the Boston Braves to a 5 to 1 triumph over Cincinnati.

Earnshaw Licks Indians

With George Earnshaw chalking up his 15th win of the season, the

COLONIALS WIN 5-3 GAME OVER LODGE COMBINE

Maccabees, weakened somewhat by the absence of several players, nevertheless forced the Colonial Billiards, tied for the city mushball league lead, to the limit, and only lost after a hard battle. The score was 5 to 3.

Poor base-running was responsible for the lodgemen's defeat, runners passing up chances galore to advance and get into position to score. Borton and Amsberg each clouted a three-baser. Amsberg also played sensationally in the field, having four putouts and six assists without an error at short.

It was the Billiards fourth win of the second half.

Important Games Slated Electric Furnace Meets Masons Tonight

Mushball activities closed for the week, Salem random will be able to avail themselves of the regulation baseball entertainment in the city at Centennial park field, on at least three different occasions, during the remainder of the week.

Two city league games will be played tonight and Friday, both being regarded as crucially important to the circuit standings, in that at least three of the outfits have chances of stepping into first place all for themselves.

Electric Furnace, down at the bottom of the heap in the standings, will attempt to solve the offerings of Bill Sanders, when they face the Masons, in tonight's fracas, while tomorrow night the Pottery meets the Colonial Billiards.

Masons Can Advance

A win for the Masonic aggregation will put them in second place, successors to the Potters, at least for a 24-hour period, as it will be their fourth victory in six starts, giving it a standing of .667, to the ware-makers' .600, the result of three wins and two setbacks. But

Lou Meyer Favored To Win Race Title

Altoona, Pa., July 25.—The most coveted award of the American Automobile Association to its sons of speed—the three "A" championship will sway in the balances at the Altoona speedway. Labor day while the annual fall classic is being run over its 200 mile course.

It will be a race of Lou Meyer, last year's champion, against the 1,000 points gathered by Ray Keech before he inadvertently "hung up the goggles." The youthful title holder who gained national prominence by copping the Indianapolis event last year as a "dark horse," needs only 70 points to tie the Philadelphia speedster. Meyer holds 930 points through his second place victory at Indianapolis. Memorial day and his win at Altoona in the Flag day classic.

City Mushball Title At Stake

Damascus Scheduled For Titular Clash With Mullins Outfit

Damascus Business Men and Mullins will clash in the play-off contest for the championship of the first half of the Salem softball league, at Centennial park next Wednesday night, Joe M. Kelley announced today.

Damascus holds a clean record for the season in the mushball circuit, having won six and lost none in the first half, and continued this half with two straight victories. The Mullins crew lost one decision in the first half, winning five.

The two teams did not meet in the opening half schedule, the game being postponed several times on account of rain, until finally it was decided they should play it off next week. A win for Mullins will bring the race to a tie, and force a second game for the title.

Next Wednesday's game will follow the regularly scheduled contest, which will start at 6.

"UNACUSTOMED AS WE ARE"

Stan Laurel and Hardy, noted comedy pair, will be featured in their first all-talking cinema, at the State tonight. It is entitled "Unaccustomed As We Are."

"COME ACROSS"

A cross section of modern life is exposed to view in "Come Across" the Universal talking production which will open at the Royal theatre tonight.

Its action moves from a notorious underworld night club with its music, singing and dancing, to a mansion in a fashionable Long Island district. Its plot depicts the adventure of a wealthy girl who leaves her sheltered existence to expose herself to the worst dangers of the underworld.

Lina Basquette plays Mary Houston, the society girl of the story, who is not satisfied with the life of her rich set. She wants to find out about life, she wants to learn how the other half lives.

To do this she enters into an entirely new environment and braves every danger. She appears in a scanty costume as an entertainer in a night club of the worst sort. She apparently lends herself to the plans of notorious criminals.

"STARK MAD"

What is probably the most unique of all gorilla plays, "Stark Mad," latest special mystery picture, in which Bungawunga, largest and most intelligent gorilla in captivity rules the jungles as if to the jungle-born is at the State.

"Stark Mad" recounts in serio-comic heroes—the adventures of a bespectacled party who yachts to the jungles of Central America to search for a young hunter and his guide who have been missing for some months.

Claude Gillingwater plays the part of the millionaire father of the hunter, founder of the expedition. His secretary is none other than Louise Fazenda, past mistress of squeaking jibbering terror! There is in the party a naturalist, absent-minded, grave, and a magnet for the yearning sinister heart of Louise. The party reaches ancient ruins in the jungle, and there come upon horrors of flying arrows, falling floors, mysteriously closing doors and the huge galloping bulk of Bungawunga, who whisks people out of sight unceremoniously—only balked by the arrival of the explorer, Prof. Dangerfield, played by H. B. Warner, who brings with him the crazed guide of the lost hunter.

A Frenchman has invented a motor boat that can be used to navigate roads by mounting it on an automobile chassis and connecting its motor to the rear wheels.

2 WASHERS IN 1

—and now you can have both in one washer! The new Graybar Two-Speed Clothes Washer has a slow speed in addition to the usual fast speed found in ordinary washers. The slow speed means *gentleness* for your dainty silks, linens, etc! The fast speed means *thoroughness* for your heavier, *every-day things!* The announcement of this revolutionary feature must have struck a responsive note in the women of this town. They are flocking to see it! And seeing it, are enthusiastic! Have you seen it yet?

Note: Another new feature worthy of your particular attention is the self-emptying tank of fine white porcelain enamel. This material—the easiest of all materials to clean—is successfully used in the Graybar Two-Speed Clothes Washer because of a metal shell and rubber bumpers which protect it from blows and jars.

I've said to my clerks on more than one occasion, "Suppose you were a housewife who had included 'a loaf of bread' in her order. Wouldn't you be pleased to see that your grocer had sent you a loaf that carried a guarantee of purity on the wrapper? And when you tasted it and recognized that home-like flavor, wouldn't you be sold on that store for life?" That's why I say, "Always fill the order with Bond when just 'a loaf of bread' is asked for."

eon."

Started in 1925

The Famous Market has been
operating in its present location for
four years. It started out, occupying
approximately one-half its present
floor space, but gradually the in-
crease of business forced the young
partners to add to their store, space
which almost doubled the establish-
ment.Meals are served at usual hours,
while sandwiches are available 24
hours daily. Cakes, pies, cookies,
bread, and all other baked goods,
including special cakes for weddings,
anniversaries, and other occasions,
are supplied.The store is generally known as
"the home of tasty foods."Paris—Like Paderewski and a
number of celebrated surgeons, the
hands of the well-known Parisian

their weight in gold."The French government has as-
sumed control of all radio stations
in the country.

For Phone BooksSt. Louis, July 25. — The recent

numbers.It was revealed that the direc-
tory was used to press wrinkled
neckties; as a bank to place money
in; to keep photographs; and as a
safe deposit vault to store away a

word at Hendrick's Candy Shoppe,
Lincoln ave., where most of the city's
tastiest candy is produced and cir-

stopping in front of the store have
created quite a problem with the
city safety department, for Hen-
dricks has become quite noted for
its artistry at candy-making.Boxes for all occasions—bridge
parties, birthdays, weddings, var-

standing events, will be secured at
